HISTORIC NEW ENGLAND

About Historic New England

Historic New England—founded as the Society for the Preservation of New England Antiquities on April 2, 1910—serves as a leader in historic preservation in the New England region and beyond, and is one of the most comprehensive independent preservation organizations in the United States. Historic New England welcomes the public to thirty-eight exceptional museums and landscapes, including several coastal farms.

The organization operates a major collections and archives center in Haverhill, MA, and has the world's largest collection of New England artifacts, comprising more than 125,000 decorative arts and objects and 1.5 million archival documents including photographs, architectural drawings, manuscripts, and ephemera. Engaging education programs for youth, adults, and preservation professionals and award-winning exhibitions and publications are offered in person and virtually. The Historic New England Preservation Easement program is a national leader and protects more than 127 privately owned historic properties throughout the region.

Historic New England serves the public through six key program areas: Homes, Farms, and Landscapes; Collections and Exhibitions; School and Youth Programs; Preservation Services; Research; and Community Engagement and Leadership.

The thirty-eight historic sites span four centuries of architectural styles and five New England states. Historic New England takes care of 167 buildings with 5,027 windows, 156 chimneys, 73 heating systems, and 312,185 square feet of roofs.
